

Does Pixii provide energy storage?

If you have an energy storage requirement in range mentioned above, Pixii will deliver. Pixii have offices in Norway, Germany, Slovakia and Australia and other offices in other key markets is under consideration.

Is Pixii a sustainable company?

Pixii's commitment to sustainability is evident in their contributions to optimizing solar energy use, peak shaving, arbitrage, and participation in flexibility markets. Pixii is headquartered in Norway, with its European sales headquarter in Germany and a global reach through offices and partners in several countries.

What is pixiibox?

Our modular building block called the PixiiBox is the core component in all our systems. PixiiBox opens the door for both energy saving services and income generating services through the concept of value stacking. Our modular approach to battery energy storage - unlocks unprecedented flexibility and scalability

The jury writes that Pixii has developed an advanced and innovative solution for battery-based energy storage that really hits a nerve in the green transition. "We are extremely proud to win, and it is a great recognition for everyone in the company. The award carries a special meaning as it is a completely open ranking"

Pixii has entered into a partnership with the TSG Group to support the rapid growth of Pixii's energy solutions within the mobility market. TSG can now offer its customers - including companies and service stations - Pixii's storage solutions aimed at optimizing energy usage and costs, while also contributing to the stability of the electricity network.

Pixii is proud to launch Pixii Home, a game-changer in residential energy solutions. Building on our expertise on delivering battery energy storage systems for the industrial sector, we are now bringing our ...

Pixii's battery energy storage system offers a range of advanced functions, including voltage support, phase balancing, and active and reactive power compensation. The BESS is modular and easy to install, with hot swappable ...

Andreas Gronarz, Head of Pixii Home "We're excited to work with Greenely. Our partnership combines Pixii Home's advanced energy storage with Greenely's platform to make energy use more efficient in homes and ...

Pixii recognizes the pressing need for sustainability and provides modular and scalable battery energy storage systems (BESS) that contribute to a greener future. These systems, ranging ...

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential. Learn more. We are the first generation to feel the sting of climate change, and we are the last generation that can do something about it.

The Pixii battery energy storage system offers a flexible solution for enabling efficient and cost-effective EV charging in parking lots and office buildings. It is modular, allowing for seamless scalability to meet your specific needs, and has a range of ...

"Developing world-class technology is at the heart of Pixii, and the new facility gives us room to expand and support Pixii's strong international growth" Kjetil Rostoft Boysen, CTO of Pixii. Pixii has had its head office in Kristiansand, in the southern part of Norway, since the company got its start in 2018.

Introducing the Pixii PowerShaper XL - the next evolution in energy storage. Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, PowerBase XL) delivers unparalleled performance and reliability for energy-oriented applications, building on the Pixii modular and scalable ...

Pixii's battery energy storage systems with smart functionality enable telecom operators to better utilize these resources and address challenges in local grids. By introducing bi-directional converters, which can both provide power to telecom loads and feed excess energy back to the grid, telecom operators can make their assets more active ...

Flexible grid tied energy storage system 30 kW/72 kWh or 60 kW/144 kWh. The PowerShaper PoleTop from Pixii, is an IP55 complete modular energy storage system. ... Participate in the frequency control market with Pixii's smart energy storage solution, allowing you to provide first-response frequency support and help stabilize the grid by taking ...

Kenneth Bodahl, CEO of Pixii. The jury noted Pixii's rapid export growth and pointed out that innovative energy storage systems are an essential part of solving the world's energy challenges, including security of supply, grid ...

EBERO FAB will be a value-added reseller, incorporating Pixii's state-of-the-art storage systems into its extensive product portfolio and marketing them under the Pixii brand. EBERO FAB, founded over 90 years ago, has developed into a pioneering system provider and project logistics provider for supply and communication infrastructures.

This document describes the step by step commissioning of Pixii Home energy storage system. Empty space, drag to resize. 03.09.2024 Rev. 2.0. Open document. Pixii Home Commissioning Form. This document is a checklist to be completed during the commissioning of Pixii Home systems.

EBERO FAB will be a value-added reseller, incorporating Pixii's state-of-the-art storage systems into its extensive product portfolio and marketing them under the Pixii brand. EBERO FAB, founded over 90 years ago, has ...

The Pixii Battery Energy Storage System is designed to be easy to install, quick to deploy, and requires minimal maintenance. With its innovative power architecture, all-in-one cabinets, and intuitive web app, the Pixii BESS is the perfect solution for anyone looking for a reliable and efficient energy storage system.

The new Pixii office in Brisbane will be our global hub for hybrid off-grid Battery Energy Storage Systems (BESS) September 19, 2024. ... is well-positioned to meet the needs of both residential and commercial sectors seeking reliable and efficient energy storage systems. Pixii's innovative, plug-and-play BESS solutions are designed to help ...

Value stacking is the art of combining multiple services in a Battery Energy Storage System (BESS) to unlock its full potential. ... At Pixii, we have gained extensive experience implementing value stacking strategies through real-world installations. With numerous systems successfully up and running, we have fine-tuned our approach to maximize ...

Pixii is happy to announce that Rexel will distribute Pixii's products in Sweden, a key market for Pixii's smart energy storage solutions. Together with its installation customers, Rexel will target commercial and public property owners and industries with Pixii PowerShaper cabinets as well as the residential market with the newly launched ...

The Pixii battery energy storage system is modular, easy to scale and quick to deploy. It comes with smart functionality, allowing you to reduce your energy costs, open new revenue streams, ...

Pixii has signed a memorandum of understanding with the Provincial Electricity Authority (PEA) of Thailand and I2 Enterprise Public Company Limited to collaborate on a project to develop battery energy storage systems to support PEA's power grid. ... With cutting-edge technology, the Pixii modular energy storage solution gives you a wide ...

The Pixii Home battery energy storage system is quick to install and easy to use, helping you get more out of your solar panels and reduce your dependency on the grid. Pixii Home is a compact, all-in-one solution that combines cost-saving and revenue-generating functions through value stacking. It connects with most new or existing solar panels ...

Introducing the Pixii PowerShaper XL - the next evolution in energy storage. Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, ...

Pixii energy storage can operate with most battery modules designed for 48VDC and parallel operation and our systems are compatible with a wide range of battery brands and technologies. LFP batteries typically for more power oriented applications, with the lowest level of cobalt or nickel, and NMC batteries providing the highest level of energy ...

Pixii is a rapidly growing supplier of modular and scalable battery-based energy storage solutions for a wide

range of market segments. Committed to a sustainable future, Pixii speeds up...

In response, TGN Energy and Pixii introduced a state-of-the-art solution: the Pixii PowerShaper Battery Energy Storage System (BESS), integrated with TGN Grid. This advanced system serves as the brain of the energy operation, employing intelligent algorithms to decide whether to store or utilize the energy based on predefined targets.

"Developing world-class technology is at the heart of Pixii, and the new facility gives us room to expand and support Pixii's strong international growth" Kjetil Rostoft Boysen, CTO of Pixii. Pixii has had its head office in ...

The Netherlands has been so successful at rolling out EV charging infrastructure that only low-capacity grid connections remain. To achieve full coverage and expand fast charging ...

The PowerBase XL is a high-capacity energy storage system supporting up to 9 PowerShaper XL cabinets, offering 530kW of power and 1.8MWh of storage. Designed for quick deployment and cost efficiency, it leverages value stacking to combine energy savings with revenue-generating services like peak shaving and fast frequency support.

ep Assets, part of energy transition company ep Group, has partnered with Pixii AS, a global leader in distributed battery energy storage and power conversion technology, to support Pixii's entry into the UK market. Named Norway's fastest-growing tech company in 2023, Pixii AS has developed a fully integrated, modular and scalable ...

Kenneth Bodahl, Chief Executive Officer of Pixii Meeting India's energy storage needs. India is projected to require between 160 and 182 GWh of energy storage by 2030. Our modular and scalable energy storage systems ...
