

Who is PointGuard energy?

Energy on Your Terms. |PointGuard Energy is a leading-edge energy innovator that provides integrated home energy solutions. Through the comprehensive integration of solar, energy storage and advanced EV charging technologies, we are constantly pushing the boundaries of innovation to set new industry standards.

Is Karpowership a 'back-up' power plant in Ivory Coast?

The Ivorian government has opted for the offshore solution of the Turkish firm Karpowership over the onshore power plant option proposed by the UK's Aggreko. The contract to set up a 200 MW 'back-up' power station in Ivory Coast has now been awarded.

Will a 200 MW 'back-up' power station be built in Ivory Coast?

The contract to set up a 200 MW 'back-up' power station in Ivory Coast has now been awarded. According to our information, Karpowership, the Turkish floating power plant specialist, has won the call for tenders issued in June, pipping to the post the favourite Aggreko, the British firm that had proposed a land-based solution.

How much gold does Ivory Coast produce a year?

Gold production shot up from 13 to 51 tonnes between 2012 and 2023. The mining sector now accounts for four percent of Ivory Coast's gross domestic product, compared to just 1.5 percent a decade ago, according to the Professional Association of Miners of Ivory Coast (GPMCI).

Does Cote d'Ivoire have a role in the energy sector?

The discovery of new hydrocarbons reserves might also play a role in the country's medium-term energy prospects. Although it has not garnered the same level of attention as other countries bordering the Gulf of Guinea, Cote d'Ivoire's hydrocarbons sector has a strategic role to play in the economy.

What minerals are found in Ivory Coast?

The West African country's bedrock also contains iron, diamonds, nickel, manganese, bauxite, copper and newly discovered reserves of coltan-- a precious ore used to make electronic devices. Ivory Coast has offered attractive conditions to bring in foreign investors.
