

How much do solar panels cost in Portugal?

In Portugal, the average cost per watt currently sits around EUR2.64. So, a typical 6 kW system (suitable for an average household) might cost around EUR15,840 before applying any grants. The government's SEAI grants can significantly reduce the upfront cost of solar panel installation.

Should I install a solar panel in Portugal?

It does not really compensate the investment. So you should only install the solar panel system based on your own consumption needs. It does make sense to install as well a battery. In Portugal you will need a lot of energy as well during the night. What are the requirements for selling solar energy?

Should you switch to solar power in Portugal?

Portugal, with its abundant sunshine hours, is a prime location for harnessing solar energy. Many homeowners are considering switching to solar power, but the initial installation cost can be a major deciding factor.

Can I sell surplus solar energy in Portugal?

Yes, it is possible. The important thing is that you sell the surplus solar energy that exceeds your own use and that you don't install the panel just to sell it. The prices for surplus solar energy range between 4 cent and 8 cent in Portugal. It does not really compensate the investment.

Why should you install photovoltaic panels in Portugal?

By installing photovoltaic panels, you can generate your own renewable electricity. With its sunny climate, Portugal, and especially the Algarve, is the perfect location to benefit from the sun for both electricity and hot water.

Should you buy or renovate your home in Portugal?

After you buy your home in Portugal, you might be interested in energetically renovating it, since this is not only more efficient, but also cheaper long-term, with various financial aids from the Portuguese government and European Union. One of the ways through which you can achieve this is Solar panels. Let's understand them better.
