

What is a rangebank Bess (battery energy storage system)?

The Rangebank BESS (Battery Energy Storage System) is an industrial scale BESS to be located in Cranbourne West, Victoria, Australia. It will provide 200MW / 400MWh capacity of reliable and flexible energy solutions.

What is a rangebank Bess?

The Rangebank BESS helps to increase Victoria's renewable energy hosting capacity and provides essential system services that support the safe, secure and reliable operation of Australia's energy system.

Who is constructing the rangebank Bess project?

The project is proudly being developed by Eku Energy and Shell Energy Australia. The Rangebank BESS will be built, serviced, and maintained by Fluence- a global leader in energy storage products and services within the renewable energy and storage sectors.

How will the rangebank Bess project help Victoria meet its energy goals?

The project will help Victoria meet its energy storage targets of 2.6GW by 2030 and 6.3GW by 2035. The Rangebank BESS project will feature a storage capacity of 200MW. Credit: Fluence Energy. The Rangebank BESS project will feature a storage capacity of 200MW. Credit: Fluence Energy.

What is the storage capacity of the rangebank Bess project?

How will rangebank Bess benefit Victoria?

The addition of Rangebank BESS will provide essential firming capacity and a reliable source of electricity supply to Victoria in addition to helping the state achieve its energy storage and renewable energy targets. 1 According to the 2023 Clean Energy Australia report.

Once fully operational, the 200MW / 400MWh Rangebank BESS will have the storage capacity to power the equivalent of 80,000 homes across Victoria for an hour during peak periods. The project, to be built on two hectares of land within the Rangebank Business Park in Melbourne's southeast, has reached financial close and is expected to be ...

The Rangebank Battery Energy Storage System (BESS) in Melbourne's Rangebank Business Park provides up to 400 MW hours (MWh) of power, enough for 80,000 ...

The Rangebank BESS, Victoria's second largest storage system, was officially opened on 3 December 2024 by The Hon. Lily D'Ambrosia MP, Victorian Minister for Energy & Resources, together with Tom ...

Shell Energy has signed an offtake deal with a 20-year term for 100% of dispatch rights to the BESS. CEO Joiner noted that the Rangebank BESS project marks the company's first direct equity investment into a BESS ...

"Rangebank BESS is an important addition to Shell Energy's battery portfolio being our first grid-scale battery investment in Victoria and Shell's first direct equity investment in a utility-scale BESS globally. It will help support a more resilient power system in Victoria, and a more reliable energy supply for our customers as the ...

The Rangebank BESS will be built, serviced, and maintained by Fluence, a global provider of energy storage products and services, and cloud-based software for renewables and storage, utilising Fluence's latest Gridstack product. "The Rangebank BESS project is another milestone for Fluence in Australia. We are thrilled to be able to partner ...

"Rangebank BESS is an important addition to Shell Energy's battery portfolio being our first grid-scale battery investment in Victoria and Shell's first direct equity investment in a utility-scale BESS globally. It will help support a more resilient power system in Victoria, and a more reliable energy supply for our customers as the ...

Situated within the Rangebank Business Park in Melbourne's southeast, the Rangebank Battery Energy Storage System (BESS) provides 200MW / 400MWh capacity of reliable and flexible ...

The Rangebank BESS will increase Victoria's renewable energy hosting capacity and provide essential system services that will support the safe, secure and reliable ...

The Rangebank BESS will be built and maintained by Fluence, utilising Fluence's sixth generation Gridstack energy storage technology. All going well, construction is set to commence this quarter. The project has all its ducks lined up; with land, development approvals and financing secured. Among the financiers is Westpac.

Shell Energy has signed an offtake deal with a 20-year term for 100% of dispatch rights to the BESS. CEO Joiner noted that the Rangebank BESS project marks the company's first direct equity investment into a BESS project anywhere in the world, as well as being its first investment in a project of this type in Victoria.

The project is proudly being developed by Macquarie Green Investment Group and Shell Energy Australia. Click on a link to view core information about the site in Punjabi, Hindi, Singalese, Tamil and Dhari.

MW/400MWh Rangebank BESS, developed via a collaboration between energy storage developer Eku Energy and Shell Energy, an integrated energy services ...

Rangebank BESS will play a crucial role in helping stabilise Victoria's state electricity supply by providing

additional storage capacity which can be discharged at times of peak demand. Situated in the Rangebank Business Park in Melbourne's southeast, the jointly developed 200 MW/ 400 MWh BESS has the capacity to power 80,000 homes for an ...

The Rangebank BESS, Victoria's second largest storage system, was officially opened on 3 December 2024 by The Hon. Lily D'Ambrosia MP, Victorian Minister for Energy & Resources, together with Tom Best, Chief Operating Officer Eku Energy, Tony Keeling, Australia Chief Executive Officer Shell Energy, Steven Murphy, Perfection Private, and Jason Beer, ...

The Rangebank BESS (Battery Energy Storage System) is an industrial scale BESS to be located in Cranbourne West, Victoria, Australia. It will provide 200MW / 400MWh capacity of reliable ...

We are proud to be developing the Rangebank BESS in the Cranbourne community and welcome your feedback on this project. We Welcome Your Feedback If you would like to contact a member of our team directly to ask a question or discuss matters about this development, please call us toll free on the number below or send us an email.

Shell Energy and Macquarie Asset Management's Green Investment Group (GIG) have announced plans to build a battery energy storage system (BESS) to add to their expanding energy storage portfolio in Australia. The Rangebank battery project is located on two hectares of land within the Rangebank Business Park in the city of Cranbourne, southeast ...

Shell Energy Australia has partnered with Green Investment Group (GIG), part of Australia-based venture capital fund Macquarie Asset Management, to build the 200 MW/400 MWh Rangebank battery energy storage system (BESS) in the 20-hectare Rangebank Business Park in Cranbourne on Melbourne's southeast.

The Rangebank BESS (Battery Energy Storage System) is an industrial scale BESS. It will provide 200MW / 400MWh capacity for reliable and flexible energy solutions. RangebankBESS . Construction underway for a new state of the art production facility for Nuttalex Food Products ...

The Rangebank BESS, Victoria's second largest storage system, was officially opened on 3 December 2024

by The Hon. Lily D'Ambrosia MP, Victorian Minister for Energy & Resources, together with Tom Best, Chief Operating Officer Eku Energy, Tony Keeling, Australia Chief Executive Officer Shell Energy, Steven Murphy, Perfection Private, and Jason ...

Our equity investment in the Rangebank BESS represents Shell's first utility-scale BESS ownership globally. As the 100% offtaker for the Rangebank BESS, Shell Energy has access to dispatchable power from the asset, supporting renewables and contributing to a more resilient power system in Victoria.

Rangebank BESS will play a crucial role in helping stabilise Victoria's state electricity supply by providing additional storage capacity which can be discharged at times of peak demand. Situated in the Rangebank Business Park in Melbourne's southeast, the jointly developed 200 MW/400 MWh BESS has the capacity to power 80,000 homes for an ...

The Rangebank BESS will increase Victoria's renewable energy hosting capacity and provide essential system services that will support the safe, secure and reliable operation of Australia's energy system. Lily D'Ambrosio, Minister for Energy and Resources said, "Grid-scale big batteries like this one are crucial in helping Victoria ...

Rangebank BESS will play a crucial role in helping stabilise Victoria's state electricity supply by providing additional storage capacity which can be discharged at times of ...

"Rangebank BESS is an important addition to Shell Energy's battery portfolio being our first grid-scale battery investment in Victoria and Shell's first direct equity investment in a utility ...

Shell Energy Australia has partnered with Green Investment Group (GIG), part of Australia-based venture capital fund Macquarie Asset Management, to build the 200 MW/400 MWh Rangebank battery energy ...

Rangebank BESS is a battery energy storage system which will have approximately 200MW / 400MWh storage capacity. Once operational, it will have the storage capacity to power the equivalent of 80,000 homes across Victoria for an hour during peak periods. This will be Shell Energy's first grid-scale battery investment in Victoria and its first ...

The Rangebank Battery Energy Storage System (BESS) in Victoria is a new utility-scale project that will provide 200MW/400MWh of battery storage capacity and support to the electricity grid. Located in one of Melbourne's fastest growing population centres, Cranbourne, it will be able to power up to 80,000 homes for up to an hour during peak times.
