Photo taken October 10, 1983 when the business started. Area Energy & Electric, Inc. highly values its employees, recognizing them as the heart of the business.

Eritrea is developing building its sustainable energy capacity from such sources as wind and solar. Development of renewable energy sources helps give the country access to reliable energy and lower greenhouse gas emissions. The government of Eritrea built a wind energy pilot project in the city of Assab in the Southern Red Sea region in 2010 with the help of the United Nations Development Programme. The wind f...

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of ...
