

Where is the Sakata biomass power plant located?

The Sakata Biomass Power Plant was constructed in the Sakata Rinkai Industrial Park facing Sakata North Port. It will be operated by Summit Sakata Power Corporation (Head Office: Sakata City, Yamagata Prefecture; Representative Director: Masamichi Takase; hereinafter, "Summit Sakata Power."), which was established by Summit Energy in December 2012.

Where is summit Sakata power located?

Located in Sakata City, Yamagata Prefecture, Summit Sakata Power's 50MW biomass power plant is one of the largest of its kind in the Tohoku region. It consumes 160,000 tons of wood chips sourced in Japan and 100,000 tons of imported wood pellets each year. The wood chips, which account for 40% of the power generated, come from Yamagata Prefecture.

What is the largest biomass power plant in Yamagata Prefecture?

The 50 MW biomass power plant will be the largest of its kind in Yamagata Prefecture and also one of the largest of its kind in the Tohoku region. Biomass fuels, such as Japanese wood chips and imported wood pellets, will be procured through Sumitomo Corporation's Materials, Supplies & Real Estate Division.

What is the energy storage industry?

The energy storage industry is a rapidly growing sector that focuses on the development and implementation of technologies and systems for storing and utilizing energy efficiently. It encompasses various companies that offer a range of products and services to meet the increasing demand for energy storage solutions.

Who is KSTAR technology company?

Shenzhen KSTAR Science and Technology Co., Ltd. Kstar.com.cn is a technology service company that provides solutions in the fields of data centers, new energy, and charging stations. They offer products such as solar inverters, energy storage systems, and electric vehicle charging stations.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions, Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of the industry's top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

The goal in company document collection is straightforward: to collect the annual reports of all listed companies in major economies. We strive to collect documents for all listed companies on all exchanges, that includes the main ...

As renewable power generation accelerates and concerns around the capacity and resiliency of energy grids grow, companies are increasingly exploiting and developing energy storage systems. But grid-connected energy ...

Japan-based Sumitomo Electric Industries (5802.T) is a multinational corporation with a broad portfolio spanning electric wires, optical fibers, and energy storage systems. The company has been a pioneer in ...

The American multinational corporation is one of the major players in energy storage market. The company's Gigafactory mainly manufactures batteries and battery packs for Tesla vehicles and energy storage products. In ...

This article showcases our top picks for the best Canada based Energy Storage companies. These startups and companies are taking a variety of approaches to innovating the Energy Storage industry, but are all exceptional companies well worth a follow. We tried to pick companies across the size spectrum from cutting edge startups to established brands. We ...
