

Sanhua intelligent control energy storage thermal management cooperation

Who is Sanhua intelligent?

Sanhua Intelligent is a subsidiary of Sanhua Holding Group and was listed on the Shenzhen Stock Exchange since June 2005. It operates multiple business units and among them, Sanhua Commercial is a subsidiary specialized in commercial air conditioning, heat pumps, refrigeration and industrial refrigeration intelligent control components.

Who is Sanhua A/C & thermal management company?

The Company is both the largest refrigeration components manufacturer as well as the leading components manufacturer in automotive A/C and thermal management area. Sanhua has become the world's top brand and a strategic partner of numerous auto makers, A/C and refrigeration electric appliance manufacturers around the world.

Is Sanhua intelligent a good company in China?

As of December 31, 2022, among more than 4,600 listed companies in China, Sanhua Intelligent's market value ranks among the top 5% of A-shares in China. Focus on the manufacturing of control components for household refrigeration, residential air conditioning and home appliance equipment.

What makes Sanhua a leader in the Global refrigeration components market?

After over 30 years of development, the Company has established industrial leading position in the global refrigeration components market. Sanhua's products of EEV, four-way reversing valve, solenoid valve, Micro-channel heat exchanger and Omega pump rank first globally in terms of market share.

What does Sanhua do?

Sanhua continuously improves internal operation and management, and combines industrial and capital operation to quicken global merger and integration and further from cost-oriented to technology-oriented and from development of machinery parts to that of systemic and technical solutions to electronic control integration. Sanhua's aim to become:

Who is Zhejiang Sanhua intelligent controls?

Our subsidiary company, Zhejiang Sanhua Intelligent Controls Co. Ltd., launched its stocks in 2005 and it is listed on Shanghai-Shenzhen 300 index, MSCI, FTSE Russell, Dow Jones Stock Index and other 200 constituent stocks. In 2023, we ranked top 4% by market cap among China A-Shares companies, top 3 in Zhejiang.

The company is specialized in developing thermal management solution of heat exchange and intelligent control in a variety of aspects, including buildings, household ...

Dr. Zhang Rongrong, made a special report, "Research and Development of Intelligent Thermal Management

Sanhua intelligent control energy storage thermal management cooperation

Module for New Energy Vehicles", introducing the development of core components of Sanhua in the field of thermal management of new energy vehicles, and providing accurate thermal management control for cooling of electric drive system.

Established in 1984, Sanhua Holding Group has developed into a global leading supplier in HVAC/R industry through three decades of pioneering endeavor and dedication of advanced management, leading-edge technology and highly competent talents.

At present, on the basis of new energy thermal management, Sanhua arranges energy storage thermal management and collaborates with leading enterprises in the industry for research and development. Sanhua culture's innovation gene, "excellence, the pursuit of excellence" spirit, "rapid response, immediate action" style, so that Sanhua has a ...
