

Does Saudi Arabia have a solar radiation climate?

The present work studied the solar radiation climate of Saudi Arabia, using measurements of solar radiation data at 43 sites available from the K.A.CARE research program of Saudi Arabia. This work is the first in Saudi Arabia studying the solar radiation climate of the country and among the few in the international literature.

What are the three components of solar radiation in Saudi Arabia?

The analysis in the present study was focused on the three solar radiation components (primarily, global and diffuse horizontal irradiances; secondarily, direct horizontal irradiance) for 43 sites in Saudi Arabia. We used the diffuse fraction, k_d , (or cloudiness index [48]), and the absorption index, k_b .

Why is solar irradiance different between Riyadh and Saudi Arabia?

Riyadh is an active city as a capital of Saudi Arabia, so that the difference in the percentages of solar irradiance between the two cities in the central regions is due to the industrial and anthropogenic factors. Table 2 shows the seasonal variation in solar irradiance and sunshine duration.

Why is solar irradiance greater in Riyadh than in Unaizah?

Comparing Riyadh with Unaizah station in the central region, solar irradiance in Unaizah is greater than that in Riyadh through all months of the year (Fig. 5). This means that there are external factors in Riyadh which reduce solar irradiance.

Is solar available in Saudi Arabia?

In Saudi Arabia, no specialized and detailed study has been made for the whole country, though several works have been conducted for the solar radiation levels at certain locations or regions in the country. The first work on the solar availability at certain sites in Saudi Arabia dates to the 1980s and 1990s [21, 22, 23, 24, 25, 26].

How many solar radiation stations are there in Saudi Arabia?

The RRMM program funded the establishment of 47 solar radiation stations throughout Saudi Arabia. The collection of data started in August 2013 and continued to the end of August 2021; this duration is not the same at all of the stations of the program, which means that gaps exist.

Learn about Saudi Arabia's 2024 ban on outdoor work during peak sun hours to protect workers from heat-related risks. Discover the details. Thursday, 12 December 2024 Prayer Times ...
