

What is Saudi Arabia's solar PV future?

As the country has high solar irradiation, solar PV has been the focus area within renewables for the government. By 2030, cumulative solar PV capacity in Saudi Arabia is expected to reach 28.6GW, growing from 0.5GW in 2020.

Will Saudi Arabia have 50% of its electricity produced by renewables?

Saudi Arabia aims to have 50% of its electricity produced by renewables by 2030. Image: Saudi Power Procurement Company

What is open solar contracts?

The Open Solar Contracts initiative, supported by multiple reputable law firms, will provide a standardised contractual documentation solution that will be freely and publicly available and is designed to be universally applicable.

Where are the PV plants located in Saudi Arabia?

The tendered PV plants include the 2 GW (AC) Al Sadawi plant located in the country's east and the 1 GW (AC) Al Masa'a project located in northern Hail province. It also includes the 400 MW (AC) Al Henakiyah 2 plant located in western Madinah province and the 300 MW (AC) Rabigh 2 array located in western Makkah province.

Who are the bidders for the 1000 MW Al-Masaa project?

The shortlisted bidders for the 1,000 MW Al-Masaa Project (1000 MW) are the SPIC Huanghe Hydropower Development-EDF Renouvelables consortium, which offered \$0.0131/kWh, and Saudi-based Al Jomaih Energy and Water Company in partnership with the renewable energy arm of French giant TotalEnergies, which submitted a price of \$0.0136/kWh.

Saudi Arabia signed agreements for solar energy projects with foreign partners during the Saudi-French Investment Forum attended by French President Emmanuel Macron ...

If the employment contract itself does not specify a definite term, the term will be the length of the employee's work visa or work permit. Saudi employees automatically become engaged on indefinite-term contracts after 3 consecutive renewals of the employment contract or when the initial and the renewed term of employment reach 4 years.

The plant is part of the Kingdom's National Renewable Energy Program, and is scheduled for commissioning in 2024. Sunpure Wins Contract for Saudi Arabia's 348MW Solar Project. KSA, PV Intelligent Cleaning Robots, Saudi ...

Saudi Power Procurement Company inked a PPA with Ar Rass Solar Energy Company for the 700-megawatt

Ar Rass Solar photovoltaic independent power project. The winning company belongs to Acwa Power that is based in Saudi Arabia itself. The solar power project is located in the Qassim region of Saudi Arabia and is valued at 1.7bn riyals.

Masdar, the UAE clean energy company, has won a contract with Chinese and South Korean partners to develop a 2GW solar project in Saudi Arabia. The company, along with its partners GD Power of China and the Korea Electric Power Corporation, will build the plant at Al Sadawi, about 500km north of Riyadh in the Eastern Province.

The request for proposals issued in February 2024 by the SPCC covered four projects with a combined total generation capacity of 3.7GW: the 2-GW Al Sadawi Solar PV IPP, the 1-GW Al Masa'a Solar PV IPP, the 400 ...
