The above Apps have been created by TSL ® to demonstrate the performance, functionality and versatility of our Bluetooth ® UHF RFID Readers. They also serve as demonstration of TSL's powerful ASCII 2 Protocol. This sophisticated, ...

Rugged Power Banks. Here's where things get serious. If you're the adventurous type, a rugged power bank is your best friend. You don't want to carry around some flimsy device that'll break when it gets dropped in the dirt or gets wet during a sudden downpour. Rugged power banks are built to handle the elements--rain, mud, dust, you name it.

Solar Power Banks. Solar power banks come with built-in solar panels, allowing you to recharge them using sunlight. This is incredibly useful for longer camping trips where access to electrical outlets is limited. They are eco-friendly and provide a renewable source of energy. Rugged Power Banks

A rugged power supply unit is a form of power supply that is capable of withstanding a variety of environments, even those with particularly challenging conditions and climates. These power supplies are designed and built for the sake of withstanding extreme or otherwise complicating weather and environmental conditions.
