

How much does a solar system cost in Gaza?

"We also work in the water sector providing desalination plants in Gaza with solar facilities that help Palestinian families get clean and fresh water." The cost of installing a solar panel can range from \$1,200 and could go up to \$15,000. Sometimes, the company installs the system on the entire building with 20 families or more splitting the cost.

How did solar power work in Gaza?

We renovated 20 desalination plants that provided 15,000 Liters/day across the Gaza strip by deploying solar systems to power them. We installed tens of solar systems to support nebulizers and electric mattresses, in homes with disabled individuals. We installed solar street lights in communities serving more than 7000 people.

How much electricity do Palestinians in Gaza get a day?

About 86 per cent of Palestinians in Gaza reported they receive electricity for six to eight hours daily on average during the year, with 82 per cent reporting they are unable to refrigerate food due to the lack of electricity provided by the public network, according to a survey conducted by the International Committee of the Red Cross.

What is Sunbox doing in Saudi Arabia?

SunBox is currently working on a pilot project in Saudi Arabia to provide solar energy to different mosques in Jeddah and Riyadh, and is raising \$690,000. "We are very profitable and generating revenue and we are looking to grow operations across the region including Lebanon, Saudi Arabia and Jordan.
