What is solar power & how does it work in Ireland?

Solar power is a renewable energy source that substantially reduces electricity bills for Ireland's homes and businesses. Government incentives, such as the SEAI solar electricity grant, are available to help with the initial costs of installing solar PV panels.

Is the UK & Ireland suitable for solar PV?

The UK & Ireland IS suitable for Solar PV. The panels work on daylight, not direct sunlight, there is ample daylight to generate a healthy amount of electricity. On average a 4kW system could potentially generate EUR600.00*worth of electricity annually. Prices are now more feasible, and we also offer a finance option if preferred.
