

Who is spruce power?

Tomorrow. Spruce Power is a leading owner and operator of distributed solar energy assets across the United States. By offering subscription-based services to over 52,000 customers, Spruce is able to make renewable energy more accessible to everyone.

Does spruce power offer a battery bundle?

Spruce Power offers a battery bundle using Tesla's (TSLA) Powerwall and Enphase's (ENPH) battery pack. This makes it easier for households to enhance the resiliency of their rooftop solar systems as storing energy allows demand to be better matched to supply.

Is spruce power a good investment?

The move represents a hard pivot by management and will see shareholders gain exposure to the fast-growing market for home solar systems. With an adjusted EBITDA of \$51 million and a net profit of \$15 million, Spruce Power already presents a more attractive investment profile.

How much money will spruce power have on hand?

Spruce Power expects to have more than \$240 million of unrestricted cash and equivalents on hand after the completion of the acquisition. The market for residential solar installs is one of the fastest-growing parts of the climate economy.

Is spruce power a publicly listed company?

Residential home solar provider Spruce Power (NYSE: SPRU) is now a publicly listed company after a hard pivot by XL Fleet, an entity previously concerned with converting class 2-6 internal combustion engine vehicles into either hybrid or plug-in hybrid electric systems.

Where can I find self storage in Spruce Grove?

Self Storage is available at 85 South Ave., Spruce Grove, located in the Industrial area. Units are available for \$300 per month for an 8' x 40' Seacan Unit and \$200 per month for an 8' X 20' Seacan Unit. Features include easy to access, ground level storage and 24 hour access.
