How will solar power help St Kitts and Nevis?

The Government of St. Kitts and Nevis, the state-owned St. Kitts Electric Company and Leclanché SA have broken ground on a landmark solar generation and storage project that will provide between 30-35% of St. Kitts baseload energy needs for the next 20-25 years while reducing carbon dioxide emissions by more than 740,000 metric tons.

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

What is the St Kitts solar project?

Upon completion, the St. Kitts project will be the largest solar generation and energy storage system in the Caribbean and a model for other island nations worldwide. In its first year of operation, the system will generate approximately 61,300 MWh of electricity with a 41,500 metric ton reduction of CO₂ emissions.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

Green energy transition is one of the seven key pillars upon which the Government of St. Kitts and Nevis' Sustainable Island State Agenda is based. The other six pillars are food security, economic diversification, sustainable industries, the creative economy, COVID-19 recovery, and social protection. "If we solve energy, we solve water.

Nevis, one of the twin islands forming the nation of St. Kitts and Nevis, is not just a beautiful Caribbean destination but also a pioneer in sustainable tourism. This small island has embarked on an impressive journey to transform its energy sector from fossil fuels to renewable sources, setting an example for other regions.

The two islands have completely separate energy systems - the St Kitts Electricity Department is a government-owned utility company responsible for the generation, transmission and distribution of electricity on St Kitts. The Nevis Electricity Company is a public-private company that provides the same services on Nevis.
