

# St Vincent and Grenadines rct power battery

What is the power supply in Saint Vincent and the Grenadines?

The power supply in Saint Vincent and the Grenadines is 110V, however some of the newer hotels operate at 230V. Electricity supplies worldwide can vary from anything between 100V and 240V. It can be extremely dangerous to use an electrical appliance that is rated at a voltage different from the supply.

Do I need a voltage converter in Saint Vincent and the Grenadines?

As voltage can differ from country to country, you may need to use a voltage converter or transformer whilst in Saint Vincent and the Grenadines. If the frequency is different, the normal operation of an electrical appliance may also be affected. For example, a 50Hz clock may run faster on a 60Hz electricity supply.

What is the voltage and frequency in Saint Vincent and the Grenadines?

The standard voltage in Saint Vincent and the Grenadines is 110/230 V, and the standard frequency is 50/60 Hz. Every traveler should come along with a voltage converter as, unlike most countries, Saint Vincent and the Grenadines make use of two standard voltages.

Is Saint Vincent and the Grenadines dependent on fossil fuels?

**ST. VINCENT AND THE GRENADINES ON A PATH OF RENEWABLE ENERGY DEVELOPMENT**  
Caribbean small island states such as Saint Vincent and the Grenadines (SVG) is almost entirely dependent on fossil fuels for electricity production. This dependency has created major concerns for the sustainability of our economies and environment.

Keeping an AIMS Power inverter handy may be one of the most important aspects of living in St. Vincent and the Grenadines, because having an emergency backup power system is vital if living on the island. St. Vincent and the Grenadines electricity is 230 Vac 50 Hz, but power outages are common due to extreme tropical weather and electrical systems that can be unreliable.

o The inverter draws DC power from the battery system instead of the array  
o The array simply acts as a charging source for the battery system.  
o In SVG this is utilized in a few cases to ...
