

What is the main energy source in Moldova?

Natural gas accounts for more than half of Moldova's total primary energy supply (53% in 2018), oil roughly a quarter (23% in 2018) and solid biomass one-fifth (19% in 2018). Most natural gas is used for electricity and heat generation,³ whereas oil is the most important energy source for final consumers.

What is Moldova's energy consumption?

Transport sector is the second-largest energy consumer (around 0.7 Mtoe) and the main driver in oil consumption growth. Renewables represent 20% of Moldova's energy mix, consisting almost fully of solid biofuels (19% in 2018). 6% of electricity generation comes from renewable sources (hydro, wind, solar PV).

Does Moldova supply mgres?

supplies Moldova (including the ATULBD). In November 2018, SE "Moldelectrica" (the Moldovan TSO) synchronised a few units of "MGRES" with the Romanian energy grid through the 400 kV Kuchurgan-Vulcăneşti and Vulcăneşti-Isaccea transmission lines. On March 16th, 2022 the synchronisation of energy systems with the European el

Why does Moldova import electricity from Romania?

Romania reduces the impact of this threat. The third most important type of energy imported to the Republic of Moldova is electricity. Electricity is imported from Romania and Ukraine, which makes it possible to diversify imports. In addition, Moldova has enough capacity to produce its own tion 6% Co

Is natural gas a threat to Moldova's energy security?

Most important imported fuel is natural gas. In 2020, all imported natural gas was supplied from Russia. This creates a significant and main threat to the energy security of the Republic of Moldova, since for a long time the supply of gas from Russia through Ukraine was the only route. Enabling the supply of natural gas from

What are the characteristics of the energy sector in Moldova?

in particular with regard to the following. A characteristic feature of the energy sector of the Republic of Moldova is the acquisition of significant volumes of imported energy from a single source, without recourse or the possibility of using tools to diversify supply routes, providing in such conditions about three-quarters of

A view shows the facilities of the Chisinau-1 gas distribution plant of Moldovatransgaz energy company in Chisinau, Moldova March 4, 2023.
