

Summary report of china international energy storage conference

What is the 14th China International Energy Storage Conference?

The 14th China International Energy Storage Conference is being presented under the auspices of the China Chemical and Physical Power Supply Industry Association, and its Energy Storage Application Branch, in conjunction with the China Energy Storage Network.

What is China energy storage Conference?

Organized by the China Chemical and Physical Power Industry Association and co-hosted by the Energy Storage Application Subcommittee, China Energy Storage Network, and Digital Energy Storage Network, the event is supported by over 800 organizations.

What to expect at the 2022 energy storage industry conference?

During the conference, a series of activities such as the "2022 Annual Energy Storage Industry Application Research Report" and "China Energy Storage Industry Innovation Development White Paper" will be arranged.

When is China International Energy Storage Conference & Exhibition 2024?

This event, slated for March 11-13, 2024, is titled the "CIES 14th China International Energy Storage Conference and Exhibition". It is expected to unite over 400 entities. The association's participation underscores its dedication to contributing to the digital, intelligent, and high-quality progression of the energy storage industry.

Is China ready for a new energy storage sector?

At the present juncture, the energy storage sector within China is poised to embark upon a significant phase of expansion. The surge in development across digitalization, intelligent systems, and reduction of carbon footprints has introduced fresh imperatives for the elevated progression of the new energy storage domain.

How big is China's energy storage capacity?

According to CNESA data, the capacity of independent energy storage stations planned or under construction in China in the first half of 2022 was 45.3GW, accounting for over 80% of all new energy storage projects planned or under construction.
