Since buying SunCulture's solution in September 2019, she reports that the primary benefits of the RainMaker2 pump include time saved and the ability to grow many more crops. She feels more confident about her coffee yields, noting that before purchasing the pump, she was stressed about her coffee yields, but that now "she is in a good ...

Dear SunCulture Supporters, In last year's annual letter, I advocated for a more focused approach to how capital gets allocated and what it needs to be allocated to in order to scale climate resilience technology, and specifically, solar irrigation. My sense of urgency on this has continued to increase, and for good reason: the Intergovernmental Panel on Climate ...
