

Who is Sunshine energy?

With more than 15 years solar inverter and storage system design and manufacturing experience, Sunshine Energy is positioned to provide comprehensive services and product design and strict quality control to help our customers to get the reliable products.

Why should you choose Sunshine energy?

In the entire product development and production process, Sunshine Energy always maintains the highest manufacturing process and standard of the industry, such as ISO13485 medical device level quality system, comprehensive QC and GP system to ensure high-standard product quality.

What is the Energy Academy?

The Energy Academy is wired for you! The Energy Academy is Brisbane's first industry-driven program for high school students wishing to pursue a career in the Electricity Industry. You won't see anything like it in Queensland and there's no better way for a young person to get a head start than with the Energy Academy.

How do I get into energy Academy?

To remain in the Energy Academy, students need to pass Maths, English and Science throughout Year 10. In addition to the standard benchmark testing, selection day and interview, students will also undertake some additional aptitude testing to ensure suitability for the rigor of the program. What's different from the standard program?

We need to monitor energy-source operations, forecast electricity needs based on weather and usage, and even offer energy-saving recommendations. That's why we've developed an AI- and machine-learning ...

DRAFT Summary Report (July 31, 2017) Liquid Sunshine Opportunities and Pathways to a Green Future for All Summary Report Based on a Chinese Academy of Science report of similar title Choon Fong Shih, Tao Zhang, ...

The Energy Storage Academy (ESA) was designed as a space for knowledge-sharing and discussions among government officials from developing countries, energy storage experts, and World Bank staff through a series of virtual, high-level training sessions. The ESP Academy's mission was to provide a platform to share experiences on deploying energy storage, share ...
