

Costa Rica has a strong focus on renewable energy, with 99.78% of the energy output coming from renewable sources in 2020. However, solar power currently accounts for less than 1% of the country's energy production. In November 2021, Costa Rica approved a bill that allows individuals to produce their own renewable electricity and sell their surplus energy.

Descubre algunos de los proyectos de energía solar a lo largo y ancho de toda Costa Rica. Comprueba cuánto ahorran y todo lo que podrán llegar a hacer con el poder del sol.
