

Will Turkmenistan develop a 100 megawatt solar photovoltaic plant?

Image Credit: WAM Abu Dhabi: Renewable energy company Masdar has signed a joint development agreement with Turkmenenergo State Power Corporation of the Ministry of Energy of Turkmenistan to develop a 100 megawatt solar photovoltaic (PV) plant, which will be the company's first project in the country.

What is Masdar's first project in Turkmenistan?

The solar PV plant is also Masdar's first project in Turkmenistan. Masdar CEO Mohammed Jameel Al Ramahi said: "As a global leader in renewable energy with many projects across Central Asia, Masdar has the right expertise and experience needed to support Turkmenistan's development of its renewable energy sector."

What does the JDA mean for Turkmenistan?

The JDA builds on a memorandum of understanding (MoU) signed last October between Masdar and the Turkmenistan government. Under the MoU, the two companies agreed to explore development and investment opportunities in solar and wind power projects on a public-private partnership basis.

Founded: 2009 Headquarters: Los Angeles, California Named after the amount of time it takes the sun to reach the Earth, 8minute Solar Energy is dedicated to building custom-optimized solar power plants. The company's power plants combine solar with smart storage solutions, which enables their projects to operate like conventional utility assets without CO2 emissions. ...
