

Can solar power help prevent corruption in Ukraine?

They have determined that solar and wind energy would quickly deliver a distributed power supply system and prevent corruption. The war against Ukraine has led to massive destruction of the energy infrastructure. One consequence of this is blackouts in cities.

Why is Ukraine a key energy security issue?

"The situation in Ukraine is one of the most pressing energy security issues in the world today. Ukraine's energy system has made it through the past two winters thanks to the resilience, courage and ingenuity of its people and strong solidarity from its international partners.

Does Ukraine need a new energy system?

The war in Ukraine, which has caused immense suffering and resulted in the destruction of critical infrastructure, demands urgent action to rebuild the country and its energy system. Today, Ukraine heavily depends on fossil fuels, which accounted for some 70% of its primary energy supply in 2020.

Could solar power be the backbone of Ukraine's energy system?

The war against Ukraine has led to massive destruction of the energy infrastructure. One consequence of this is blackouts in cities. In the future, renewables such as wind and solar power could form the backbone of Ukraine's electricity system. (Image: Oleksii Maznychenko /Adobe Stock)

Does Ukraine need a coordinated approach to energy security?

The report calls for a coordinated approach to ensure the energy security of both countries given their strong energy links. Ukraine joined the IEA Family as an Association country in 2022, following many years of cooperation on energy issues.

Will Ukraine become self-sufficient in terms of primary energy?

The report envisions a scenario of shift towards domestic renewables and low-emission technologies, which would make Ukraine self-sufficient in terms of primary energy, reaching 98% by mid-century. This transformation would not only contribute to energy security but also mitigate the impact of regional and global energy crises on Ukraine.

Lean Energy Solutions Limited is a pioneer renewable energy company in East Africa. Our innovative and climate conscious business model has led us to win several award such as the Overall winner of Top 100 mid-size companies in Kenya, African Climate Good Practice Award by the United Nations, CSR100 award in Waste Management(Reduce, Reuse, Recycle) among ...
