

Is ViewSonic a sustainable company?

In ViewSonic's commitment to sustainability, the company's products have continuously been designed to be energy efficient and eco-friendly. "ViewSonic leads the way with our innovation in interactive displays, with functionality, product design and sustainability in mind.

What makes ViewSonic unique?

Beyond its LED innovations, ViewSonic's interactive display solutions also gained recognition across different categories.

Are ViewSonic monitors sustainable?

ViewSonic has been taking steps, over their entire range of products, towards sustainability. For instance, 90% of the company's VG series monitors (which have been designed specifically for business settings) are EPEAT certified, with the VG2455 and VG2755 both receiving EPEAT Gold certification in 2021.

Where can I find warranty information & service on ViewSonic's products?

For warranty information and service on ViewSonic's products sold outside of the U.S.A. and Canada, contact ViewSonic or your local ViewSonic dealer. The warranty period for this product in mainland China (Hong Kong, Macao, and Taiwan Excluded) is subject to the terms and conditions of the Maintenance Guarantee Card.

How do I ship a ViewSonic product?

Take or ship the product, freight prepaid, in the original container to an authorized ViewSonic service center or ViewSonic. For additional information or the name of the nearest ViewSonic service center, contact ViewSonic.

Does ViewSonic use LED technology?

Beyond monitors, ViewSonic has also been using LED technology to develop more sustainable projectors. The company's latest 3rd generation LED technology has been designed to be energy-saving by offering lifespans of up to 30,000 hours without lamp replacements.
