

World Environment Day - Papua New Guinea continues to celebrate our interdependence with nature and our commitment to protecting our planet, Dirk Wagener writes. To live sustainably, is to live in harmony with nature. How to achieve this has been a long-standing challenge. The 1972 Stockholm Conference was an attempt to address this.

Papua New Guinea gained independence from Australia in 1975 and is one of the ethnically most diverse countries worldwide. More than 87% of the rural populations live off farming, and agriculture contributes about 28% to the national GDP 1. Furthermore, the country generates revenues from the large-scale export of mineral resources, oil, gas, and timber.
