Financial Associated Press, January 7 (Xinhua) WanLiYang announced that WanLiYang energy company plans to invest in the construction and operation of 'WanLiYang Jiangshan Qingyang substation 300MW / 600mwh independent energy storage power station project' in Jiangshan Economic Development Zone, Zhejiang Province, with a total investment ...

At 7 a.m. on February 2, the first grid-side independent energy storage power station invested and constructed by Zhejiang Wanliyang Energy Technology Co., Ltd. (hereinafter referred to as 'Wanliyang Energy'), the 'Wanliyang Duanzhou Independent Energy Storage Power Station Project', successfully passed 168 hours of continuous trial operation.

Each energy storage subsystem is connected to the 35kV busbar of the energy storage booster station via 35kV cables. This project includes the construction of a 220kV booster station, planned to be connected in a '?' configuration to the 220kV Lingjiao-Huashan transformer substation's 220kV line with a cable length of approximately 2#215;0.35km.

A 200MW/400MWh independent energy storage power station will be built near the 220KV Xinhuan substation in Doumen District, Zhuhai City. The energy storage system is connected ...
